Kezar Lake Grange
The regular meeting of Kezar Lake Grange, Dec. 3, was a pleasant and profitable occasion. The final of the evening was given to the regular business and the conferring of the first and second degrees on two candidates, then refreshments of coffee, sandwiches, doughnuts, cookies and cake were served.

After lunch there were remarks by State Grange Master Thompson, who was a guest of the grange. He spoke briefly of some of the most important happenings at the national grange, Grand Rapids, Mich., which he attended. He spoke of several decisions reached by the National Grange in regard to grange work and most important to the farmer. He gave a short talk on parliamentary rules and closed by giving some facts on the condition of business, the strikes, their consequences to the public, the high cost of living and how it all affects the farmer. A very interesting discourse and one that should make the grangers think what they can do to help in this great emergency. Later the officers were elected for the coming year.

**THE MAKING OF

Woman's Use.**

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills.

Over 550,000 bottles of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterilized bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

Do your Spark Plugs foul

The problem of keeping spark plugs free from carbon crust that cuts down the spark gap, short circuits the current and makes your engine "miss," is not hard to solve.

It is largely a matter of uniformity in the vaporizing and in the flame speed of your gasoline, combined with correct adjustment of your carburetor to insure clean, complete combustion. Standardize on SOCONY Motor Gasoline. It is carefully refined, high quality gasoline that always has uniform vaporizing and ignition qualities. No matter where you buy SOCONY it is uniform, clean-burning, power-full. It will give you big mileage from every gallon and reduce carbon troubles of all sorts. At filling time look for the red, white and blue SOCONY Sign.

Nature Provides

The Ingredients

Argo-Phosphate, the New Herbal Remedy, Now Endorsed by Local People

If the digestive organs are not properly performing the work which nature has assigned to them, then nutrition, which is absolutely essential to the recovery of diseased parts, will be lacking, and there can be no permanent relief. When bodily digestion is normal, the stomach digests the food, the blood absorbs the nutrients of the food, and the various organs to properly perform their functions.

Nature has provided a remedy in the form of Argo-Phosphate, the new herbal remedy, which is now being introduced here. It is purely vegetable and its stomachic, corrective and beneficial results are noticed from the first day. That this is true, it is only necessary to listen to the statements made daily by local people who have been benefited thereby.

Argo-Phosphate is a fair trial and have been benefited thereby.

Shoe Prices

I want to take a little time and some space in this paper, that I may discuss with the readers of this article or advertisement, the shoe situation as it now stands. We will admit that prices are high, much higher than they ought to be, but we do not admit that they are out of proportion to the other necessities of life. I have recently paid \$6.00 for a barrel of apples and I am perfectly satisfied with the price and surely believe that they could not be sold for less at a profit. I pay 65 cents per pound for butter, 12 cents a bottle for milk and so on down the list, and the producers are not getting any more than they ought to have for their work.

We have at the present time a store full of footwear of all kinds which we bought and are selling below the market price to-day. Our retail price on more than half our stock is less than we can buy at wholesale. It has always been the purpose and policy of this store to give our customers full value for their money, and this policy has surely been the means of bringing to us a good business which has increased year after year. Our customers have been loyal to us and we surely appreciate it. Now as the holidays are approaching we will suggest that you buy useful gifts and we are sure that footwear of all kinds is always useful and acceptable. We are also positive that we can suit you in style, quality and price.

We are fitting up and expect to have in operation in a few weeks, a modern boot and shoe repair department. We shall have all new and up to date machinery and intend to have as good a repair shop as can be found anywhere.

George Davee will be in charge and that fact is a guarantee that the work will be done right. We shall use the best of stock and our prices will be as low as good work can be done. We shall make a great effort to get the work out promptly. You will be informed when this department is ready for business. Save your repairing for us.

Milletville and Crockett Ridge
The Community Union Sunday school met with Mrs. Will Young on Sunday, after an enforced vacation of two weeks owing to so much sickness. It was a good meeting with 23 present. A general review of the lessons lost with a continuation of the lesson story for that day took much of the time. The Juniors then retired to another room and pasted their lesson cards into the note books provided by their teacher, making a useful as well as pretty picture album. The graduating class test will be a short story describing the pictures and their message to the world.

The neighborhood of Crockett Ridge has been in the throws of an epidemic of bronchial colds which in some cases developed into pneumonia or nearly that and those not afflicted were busy nursing the sick or cooking to send into their families.

Mrs. Harry Jackson spent two days in bed. Her son, Alpheus, had a ten days' seizure of pneumonia, her young daughter, Elizabeth had a slight run of it too. Her oldest daughter, Vera, is at home from high school recovering from a severe bronchial cough and her husband endured the same. All are convalescing.

Mrs. Addie Thurston has been confined to her bed for ten days with the same severe bronchial trouble, a slight run of pneumonia with it. Mrs. Bird is with her.

Mrs. Reginald Dinamore is back at her work after a serious time with the epidemic. Her children too, had a run of bad colds.

Miss Fuller, the teacher is at home in Oxford, recovering from the effects of a severe cold. Elmer Brown is now substituting during her absence.

Mrs. Ann Millett of the other neighborhood has been having spells of dizzy headaches, up one day and unable to be the next. She is better.

Mrs. Alpheus Lovejoy has been having a trial suffering from liver and gall trouble for two weeks now. At present she is up again and able to do some of her housework.

There is to be a pie supper at Milletville schoolhouse, Friday night, Dec. 12. Proceeds to buy a clock for the school room. Every lady is expected to bring a pie.

Bradley Willis is having a four weeks' or more vacation as Hebrew Academy is closed until after Christmas holidays.

Kidney disease is no respecter of persons. A majority of the people today can be traced back to kidney trouble.
The kidneys are the most important organs of the body. They are the filters of the blood. They remove the poisons of your blood. If they fail, the result is kidney disease, which is usually indicated by backache, sleeplessness, nervousness, pain in the loins and lower abdomen, gravel, rheumatism, sciatica and lumbago.
All these derangements are nature's signals to warn you that the kidneys need help. You should use GOLD MEDAL KIDNEY PILLS immediately.

Found in Boston Paper
This town, South Paris, up in the Oxford hills of Maine, plays an important part in the annual Christmas giving festivities. It is one of Santa Claus' important depots. Many thousands of cords of hardwood are annually transformed in the mills of South Paris into toys for the annual holiday trade. These factories are among the largest in the country, and produce a variety of articles which would make a sizeable catalogue. The number of varieties of dolls' chairs of all sizes and descriptions. There are cradles and tables which they turn out between Christmas seasons have more different names than seems possible. Then there are wheelbarrows and carts of all sizes and descriptions. There are the usual express wagon style of carts and then there are the coasters. Machinery is the great factor in the production of these toys. Most of it is of the automatic type; that is, the raw material is fed in and comes out the finished product. In this way chairs, cradles, legs and rockers, tabletops and cart and wheelbarrow sides are made. Even the painting of these toys is done by machinery. This is all necessary in order to meet the great demand for toys.

At this time these mills are working on the supply for the Christmas trade of 1920. The stock produced for this year's needs was all shipped by Sept. 1.

Purchases Power Rights
The water power of Snow's Falls in the town of Paris and the power at Biscoe Falls, about two miles south, have been purchased by E. S. Lincoln of Portland, a hydraulic engineer. They are purchased for development of electricity for light and power at West Paris or Bryant's Pond. The power at Snow's Falls has not been used for a long time, a linen manufacturing company was the last concern to use the water. A large dilapidated mill is now standing there. At Biscoe Falls, a pulp mill was run for a number of years by the late J. S. Clapp, but the mill was burned about 20 years ago and since that time the water power there has not been used.

Can Oxford County hens beat this?—A hen belonging to Charles McFarland of South Bristol, was found after the snow storm last week in a stolen nest, exposed to the weather at the foot of a birch tree with 13 eggs, from which she had hatched four lively chickens.

HAVE YOU SCROFULA?

Now Said to Be as Often Acquired as Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise. Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills,—there is nothing better for biliousness or constipation.

ANNOUNCEMENT ABOUT MUSIC

Many customers who come into my store for some particular article of musical merchandise express surprise to see such a variety of things with which to make harmony so I have decided to try to give the public a better idea of what can be obtained here. The main idea of the store is to supply the public with what they want in the line of music. As noted in the Advertiser of August 29 I recognize that there is a great diversity of opinion as to what is needed to make harmony but whatever it is I intend to have it if I know that the people want it. So if you don't see what you want, ask for it and I will do my best to get it for you. You may not want a bass drum but the other fellow will. Perhaps you will want your growing son to have a trombone. Some folks think that all that is necessary to make harmony is some good reading matter and the less noise the better. Suit yourself about that, but here's where you can find it. From some of the letters I have received in the prize competition it would appear that music has nothing whatsoever to do with sound. More about that later.

Well here you can find Victorrolas, Gramophones, records of all kinds from "Holy City" to "Casey Taking the Census," record albums, brushes, oil, grease, catalogues, sheet music and albums of all kinds of music (if I were to put in the names of the pieces they fill many papers the size of this one) instruction books for all kinds of instruments, B flat bass horn, music stands, mandolins all sizes, shape and prices (the best is the Gibson), violins, strings, mutes, fittings, E-string tuners, resins, bows, cases, guitars, Hawaiian guitars, Hawaiian Sets, green cloth cases, strings, capo-d'astros, chin rests, harmonicas, music stanchions, pianos, tambourines, and many other articles which maybe I will mention another time.

On rare occasions I have used instruments of different kinds which bear an attractive price. Just now I happen to have two used graphophones practically as good as new at a reduced price. Then there is most always the special sale sheet music 10 for 50 cents (the kind not much called for or somewhat worn at the back) 22 for one dollar—my selection. I have a used Edison cylinder machine with about 50 records which someone will get at a low price. The books which I keep for sale are high grade story books, those about musicians and music. I also carry a full line of Webster's Dictionaries and the Scofield reference Bible. Come in and let me show them to you. Maybe you can get more music out of one of these than you could out of a trombone. O. I nearly forgot the oil paintings and the reproductions of the old masters. They are worth looking at if you do not want to buy anything. If you want to hear a record or two just say so and I will be glad to play them to you. If I am interested enough to sell a musical instrument occasionally and to have people have them in their homes for enjoyment I certainly should be willing to play a record occasionally here in my store to someone who has no thought of buying.

Veranda Club Notes

The Veranda Club was entertained Friday evening, Nov. 28, at the home of Mrs. Maude Austin. Twenty members and one visitor, Miss Minnie Hill, were present. The usual Thanksgiving work was taken up by the club and the chairman, Mrs. Emma Swan, gave the usual report of the work. Christmas charity work was referred to the sick committee who will endeavor to fill the wishes of the club.

The following program was given in charge of Mrs. Vira Kilgore:

The president appointed the committee who will present the program Thursday evening, Dec. 11th, Mrs. Maude Austin, chairman, Mrs. Roselda Banks and Mrs. Emma Swan.

The mystery box is one of the pleasant features of the evening. The hostess was the winner. It contained a sample square of the quilt on which the club are working. This was a gentle reminder of the duties expected of her as a member, it also contained verses appropriate for the future work. Refreshments of harlequin ice cream and crackers were served by the hostess assisted by Mrs. Addie Lovejoy.

The hostess was invited to partake of her refreshments in the living room on the floor to be more social. This wish was readily complied with. Thus a chance for the variety shower which followed. She was the recipient of many useful gifts, handmade pillow slips, various designs in towels, salad bowl, silver, glass and china ware. A social hour followed.

The next meeting will be held Thursday evening, Dec. 11th at the home of Mrs. Susie Wentzel. At the usual time the club departed leaving with the hostess their best wishes.

Fiftieth Wedding Anniversary

Mr. and Mrs. Freeland Young recently observed their fiftieth anniversary. Fifty years ago they were married in Norway by the Rev. L. H. Tabor, pastor of the First Universalist church. The ceremony was performed at the residence of the late L. B. Weeks, Main and Marion streets, which was destroyed in the big fire of 1891. For three years after their marriage they made their home at Bryant's Pond, when they moved to Norway, and have since made this their home. Mr. Young is a musician of moderate ordinary ability. While at Bryant's Pond he was a member of the Bryant's Pond brass band. After coming to Norway, he became a valuable addition to the brass band of the town, continuing with it until its disbandment. He was also a first violinist of the Weeks' orchestra and was counted as one of the best in this section of the State.

After giving up his music because of ill health, he was employed by the B. P. Spinnery since firm for sixteen years, staying with them until they went out of business.

Mr. Young was born at Snows Falls, Feb. 8, 1844, the son of David F. and Louise (Twombly) Young. His father lived to the age of 79 years, being the oldest man in the town of Paris. On Sept. 10, 1862, he enlisted as a member of Co. F, 23rd Maine Regiment. At the expiration of his enlistment he re-enlisted in the 7th Maine Battery on Nov. 12, 1863, receiving his discharge at the close of the war. George Walker of Norway, another of the Civil war veterans, enlisted in the Co. F and they tented together and during a critical illness of Mr. Young's, Mr. Walker was his faithful nurse and doubtless saved his life.

Mr. Young is a member of Harry Rust Post, No. 54, and for the past sixteen years has been the adjutant. He is also a member of Oxford Lodge of Masons and of Oriental commandery, Knights Templar of Bridgton.

Mrs. Young was born in Woodstock, the daughter of Mr. and Mrs. Perrin Dudley. She is a member of Harry Rust Relief Corps and has been conductor for 16 years. They have one son, Walter Perrin Young of Portland, who has inherited his father's musical talents, being a fine pianist and trombone player. There are two grandchildren, Beryl Bradbury Young, who is employed in Portland, and Philip G. Young of Norway, who is the father of their only grandchild, Constance, who is the idol of the three generations.

Golden Wedding—Sweden Born

Hon. and Mrs. David Walker of Lynn celebrated their golden wedding anniversary on Monday, Nov. 24. Before their marriage, Mrs. Walker was Miss Florilla Kneeland, daughter of Mr. and Mrs. William H. Kneeland of Sweden. They have lived nearly all their married life in Lynn, and now have a comfortable home at 123 North Common street. Mr. Walker has served two terms in the Massachusetts House of Representatives and two terms in the Massachusetts Senate and 13 years on the Massachusetts State Board of Charities. He is a member of the Lynn Post of the Grand Army of the Republic, a past grand and an encampment member in the Independent Order of Odd Fellows.

Both Mr. and Mrs. Walker are members of the South Street Methodist Episcopal church, and she is the old senior resident member. He has held all the important church offices which are filled by laymen.

They have two children, Samuel K. Walker and Mrs. J. Alvah Parker, both of Lynn. The former is the present grand master of the Independent Order of Odd Fellows in Massachusetts.

News of Former Pastors

Rev. Horace A. Roberts, Jr., son of a former pastor of Norway and Paris Hill Baptist churches recently preached in his father's church at Block Island, R. I. The younger Mr. Roberts who has followed his father's footsteps in becoming a Baptist minister, is not yet located, having recently been discharged from the Army U. S. M. C. A. work. He is, like his father of a musical turn, and is likely to look closely after the musical work in his pastorates.

The senior Mr. Roberts, who has become a doctor of divinity since leaving Oxford county, is reported as in good health, and Mrs. Roberts is nicely according to the same reports.

Norway School Situation

In the succeeding weeks I shall write some articles concerning the condition of the Norway schools. They will deal largely with the high school. In these articles I shall endeavor to place before the people interested in the growth of Norway High School the facts which are indispensable to intelligent conclusions and constructive action. With all the facts before us we shall be able to take intelligent action at some future date.

In these articles I shall not try to force my own hobbies on the mind of anyone, but merely present the facts as they appear to me as a school official.

SAVES RUGS AS WELL AS WORK

In these days when labor saving devices are taking the place of personal drudgery in the home, unfortunate indeed is the woman who continues to use a corn broom in sweeping her rugs and carpets. So easily and thoroughly does the Bissell sweep, that this duty, at least no longer contributes to the fatigue of housework. A BISSELL saves Rugs, Time, Health and Money.

South Paris (Continued from page 3)

Henry D. Hammond
After a long illness diagnosed as lead poisoning from drinking water, Henry D. Hammond, aged 62, passed away at his home, Thursday, Dec. 4.

He was born in Paris, June 7, 1857, the third child of Henry E. and Adeline M. Chase Hammond. Educated in the Oxford Normal Institute, he was a successful teacher a number of years, and resigned to devote his energies to agriculture on the homestead farm.

Mr. Hammond married in 1885 Ella L. Dudley, daughter of J. Smith and Lydia Stearns Dudley of Paris. She died a few months later, and in 1887 he married her sister, E. Gertrude Dudley. Mrs. Hammond survives him with two children, Charles H., 16 years of age, and Marian D., 13. There also survive him two sisters, Mrs. J. A. Kimball of Boston and Mrs. F. E. Shory of Portland. Another sister, Alice K., died some years ago.

He was elected a selectman of Paris in 1891, and from that time held the position during three separate periods, a total of some seventeen years. At the time of his death he was holding the position to which he had been successively elected each year since 1916. In 1901 he was representative to the legislature, and from 1909 to 1915 was county commissioner. He was a trustee of South Paris Savings Bank, and ex-president of the Oxford County Patrons of Husbandry Mutual Fire Insurance Co. He had been vice-president of the Oxford County Agricultural Society, and held other positions of public service.

Mr. Hammond was a member of Paris Grange, P. of H., and had been active in its affairs. He was also a member of Hamlin Lodge, Knights of Pythias, and a republican.

The funeral was held at the home at 1:15, Sunday, attended by Rev. C. G. Miller of South Paris and Rev. Helen H. Carlson of Paris Hill. The service of the Knights of Pythias was also given by Hamlin Lodge. There was a very large attendance. Burial in Hillside cemetery.

At a meeting of the South Paris Board of Trade, held Wednesday evening, the officers were elected as follows: Pres.—Perley F. Ripley. Vice-Pres.—Geo. F. Eastman. Sec.—Irving Barrows. Treas.—B. W. Tuttle. Supt. of Schools, True C. Morrill, of Norway set forth plans for a union high school building to be located between the two villages. The structure as planned would accommodate 500 pupils. In his judgment the cost would range from \$130,000 to \$200,000. Supt. A. B. Garcelon of Paris discussed the housing situation, and the immediate relief from congestion. No definite action was taken.

Basson-Kamney
Ralph Barrows, Basson, formerly of South Paris and Matilda Marie Kamney of Kansas were recently married in California. Mr. Basson is the son of Mrs. Ida Titcomb of South Paris. He is a graduate of South Paris High School in the class of 1910 and of the University of Maine, class of 1915. For two years he was engaged in extension work at Purdue University, Lafayette, Ind. He was in the service and was commissioned lieutenant and was stationed for some time at Camp Kearney, California.

Paris Grange
Paris Grange met Dec. 6th and elected the following officers for the ensuing year:

Master—Winslow C. Thayer.
Vice-master—Austin P. Stearns, Jr.
Secretary—Ernest Talbot.
Treasurer—B. W. Tuttle.
L. J. Stewart—Jessica C. Thayer.
Chaplain—Winifred S. Starbird.
Treasurer—B. W. Tuttle.
Sec.—Almon N. Cairns.
Gatekeeper—Arthur S. Talbot.
Clerk—Edith E. Thayer.
Tombona—Ida Stearns.
Flora—Mrs. Ernest Talbot.
Chorister—Laura Brooks.
Librarian—Carrie Dudley.
Ass't.—Corra Talbot.
Member of Exec. Com. for 3 years—Perley Millett.
Exec. Com. for 1 year—Scott O. Colby.
The various committee made very favorable reports, which showed the financial grange had made the largest financial gain since building its new hall.
The next meeting Dec. 20 at 1:30, p. m.

Mrs. Huldah Perkins
Mrs. Huldah Perkins died at her home at the corner of Main and Oxford streets, South Paris, at 10 o'clock, Thursday, Dec. 4.

Mrs. Perkins was born in Milau, N. H., Oct. 1, 1837, the daughter of Joshua P. and Maria (Hubbard) Kendall. She married Simon Horace Perkins and they settled in the house which has been the family home for the past fifty-six years.

Mr. Perkins died in 1889.

She is survived by four children, Mrs. Frank Kendall of Bethel, Mrs. H. H. Frank Kendall of Bethel, who has al- Cole of Freeport, Herbert, who has al- ways lived at home, and Mrs. Pearson, wife of Rev. N. R. Pearson, pastor of the Methodist church in Waterville. All the children were called here by her illness and death. Mrs. Perkins is also survived by one sister, Mrs. Mary Dow of Stratford, N. H., out of a family of thirteen children.

Mrs. Perkins had been fifty years a member of the South Paris Congrega- tional church.

The funeral was held at 1 o'clock Sat- urday afternoon, at the vestry of the Congregational church. The bearers were the deacons, Alfred Jackson, Arthur Tal- bot, Henry F. Muzzy and C. H. Howard. Burial was in Riverside cemetery.
